The committee broke into groups according to program type to review their respective monitoring tools. The purpose was to create a workgroup to address streamlining HUD's tool to be specific to our consortium.

After meeting in each respective group, the committee came back together as a whole to discuss the findings and submitted any written notes to CAFTH for review. In addition, the committee was asked to email Errin Woods to submit any additional information concerning any monitoring tool revisions for review particularly if they did not provide any notes during the meeting.
